80	155/80R13	79	T

Features	Benefits
Asymmetric pattern	Multi-performance harmony for total balanced all season driving
High grip silica compound	Improved snow / wet traction and lowered rolling resistance
Two straight & two semi zigzag longitudinal grooves	Reduced ground resistance enables a smoother flow over water and snow, ensure the best wet and snow traction performance
Two types sipes	The application of summer and winter sipes allows the tire to possess high summer capabilities and winter capabilities

40 Series

Features	Benefits
Unidirectional tread design with double "V-shaped" lateral grooves	Efficiently maximizes water draining performance and delivers much more safety for driving on wet roads
Wide & high angled grooves	Improved drainage performance
"Multi-Wave" Sipes	Stay in control through every season, Trust in reliable all-season grip and braking performance
High-grip silica compound	Outstanding wet grip as well as reliable grip even at low temperatures, and lowered rolling resistance
High Strength Steel Belt Wire and Jointless edge and cap nylon band	Improved tread stiffness and unifomity, perfectly absorb external shock, the durability and comfort of the tire has been greatly improved

Speed Rating: R-T

60-75 Series

Features	Benefits
Balanced pattern design	Maximised for winter performance, boasts dry and wet performance on par with most summer tires
High grip silica compound	It provides excellent driving performance under all weather conditions Improved snow / wet traction and lowered rolling resistance
Three zigzag grooves	To secure safety on wet roads, to satisfy both hydroplaning and snow performance
Optimised sipe sequence on all four ribs	For all surfaces from normal roads to rain and snow
